NRA Safety:

Home Firearm Safety

4 hours

0 Rounds

\$150

Home Firearm Safety is a non-shooting course that teaches students the basic knowledge, skills, and attitude necessary for the safe handling and storage of firearms and ammunition in the home. This is a 4-hour course for safe gun handling that is conducted in the classroom only. Students are taught NRA's three rules for safe gun handling; primary causes of firearms accidents; firearm parts; how to unload certain action types; ammunition components; cleaning; care; safe storage of firearms in the home; and the benefits of becoming an active participant in the shooting sports.

Important Relevant Information: Transporting a Firearm in NJ

FYI: Transporting a firearm in NJ between authorized places without a carry permit: NJS §2C:39-6.g – Exemptions: **Any weapon being transported** under paragraph (2) of subsection b., subsection e., or paragraph (1) or (3) of subsection f. of this section **shall be carried unloaded and contained in a closed and fastened case, gun box, securely tied package, or locked in the trunk of the automobile in which it is being transported, and in the course of travel shall include only deviations as are reasonably necessary under the circumstances.**

NRA Handgun Training:

FIRST Steps Pistol Orientation

3 hours

50 Rounds

\$175

Firearm Instruction, Responsibility, and Safety Training (FIRST) is the NRA's response to the American public's need for a handgun orientation program for new purchasers. FIRST Steps Pistol Orientation is designed to provide a hands-on introduction to the safe handling and proper orientation to one specific pistol action type. This course is 3 hours long and includes classroom and range time learning to shoot a specific pistol action type. Students will learn the NRA's rules for safe gun handling; the particular pistol model parts and operation; ammunition; shooting fundamentals; cleaning the pistol; and continued opportunities for skill development.

Basics of Pistol Shooting

8 hours

100 Rounds

\$300

Basics of Pistol Shooting is intended for all individuals regardless of previous shooting experience and is delivered in the traditional classroom and range environment. This is an instructor-led 8-hour course where you will receive direct instruction from an NRA-certified instructor from beginning to end. Course topics include gun safety rules, proper operation of revolvers and semi-automatic pistols, ammunition knowledge and selection, pistol selection and storage, shooting fundamentals, pistol inspection and maintenance, marksmanship, and shooting range safety. Additionally, students will complete live fire training in a nationally standardized shooting qualification while on the range with an NRA Certified Instructor. Please use a link on page 5 to register for this course.

Defensive Pistol

8 hours

150 Rounds

\$300

Defensive Pistol teaches the knowledge, skills, and attitude to carry and use a concealed pistol ethically, responsibly, and with confidence. This course is 8 hours long and will focus on the techniques needed to develop a defensive mindset. Students should expect to shoot approximately 150 rounds of ammunition. As a result of participating in this course, the student will be able to explain and demonstrate the following: How to apply the NRA Rules for Safe Gun Handling when carrying a concealed firearm, basic principles of concealment, the difference between cover and concealment, drawing from the holster, levels of mental awareness, developing the proper mindset when using a pistol for personal protection, clearing common stoppages, use of pocket pistols, and more. This course is only conducted by NRA Certified Advanced Pistol Instructors. Please use a link on page 5 to register for this course.

Basics of Personal Protection In The Home

8 hours

150 Rounds

\$300

Basics of Personal Protection in the Home teaches the basic knowledge, skills, and attitude essential to the safe and efficient use of a handgun for protection of self and family in the home, and to provide information on the law-abiding individual's right to self-defense. This is an 8-hour course. Students should expect to shoot approximately 150 rounds of ammunition. Students will learn basic defensive shooting skills, strategies for home safety and responding to a violent confrontation, firearms, and the law, how to choose a handgun for self-defense, and continued opportunities for skill development. Lesson III of this course: Firearms and the Law, and Legal Aspects of Self-Defense, is conducted by an instructor currently certified to instruct in this area of the law through the Retired Police Officers program and Security Officer Registration Act. Your instructor presents this module as an instructor so certified to do so, not as an NRA Instructor.

Basics of Personal Protection Outside The Home

14 hours

400 Rounds

\$500

Basics of Personal Protection Outside the Home teaches students the knowledge, skills, and attitude essential for avoiding dangerous confrontations and for the safe, effective, and responsible use of a concealed pistol for self-defense outside the home. This course is for adult individuals who are not disqualified from possessing a firearm as defined by applicable federal and state laws and are of good repute and possess defensive pistol skills presented in the NRA Basics of Personal Protection In The Home Course. Participants must also understand the basic legal concepts relating to the use of firearms in self-defense and must know and observe not only general gun safety rules, but also those safety principles that are specific to defensive situations. Prospective participants can demonstrate that they have the requisite knowledge, skills, and attitudes by producing an NRA Basic Personal Protection In The Home Course Certificate, or by passing the pre-course evaluation. Part I is 9 hours and offers the essential knowledge and skills that must be mastered in order to carry, store, and use a firearm safely and effectively for personal protection outside the home. Students spend several hours on the range and shoot approximately 150 rounds of ammunition. Part II is an additional 5-hours on the range and another approximately 250 rounds of ammunition learning advanced shooting skills. Part III is Firearms and the Law and Legal Aspects of Self-Defense and is conducted by an instructor currently certified in this area of the law through the Retired Police Officers and Security Officers programs. Your instructor presents this module as an instructor so certified to do so, not as an NRA Instructor.
